Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Sunday 10 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy on Sunday with rain over the hills.

Today:
Cloudy across the Pennines with fog and outbreaks of rain, perhaps wintry at first. Elsewhere patchy early rain may fall on frozen surfaces leading to icy stretches. Gradually becoming dry, with some bright spells developing. Breezy and less cold everywhere. Maximum temperature 5 deg C (41 deg F).

Tonight:
Cloudy and breezy with extensive fog and further rain and drizzle over the Pennines. Perhaps the odd clear spell after midnight further east, cold but largely frost free. Minimum temperature 1 deg C (34 deg F).

Monday:
Staying mostly cloudy and windy, with further heavy rain and fog over the hills. Drier further east with perhaps an occasional brighter spell. A little milder than of late. Maximum temperature 7 deg C (45 deg F).

Outlook for Tuesday to Thursday:
Tuesday, cold and dry after early cloud clears south. Sunny spells developing and light winds. Wednesday, rain and possible transient snow, windy later. Thursday, windy with coastal showers, drier later.
